DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on June 22, 2005 has been entered. No claims have been amended. No claims have been cancelled. No claims have been added. Claims 1-12 are still pending in this application, with claims 1 and 7 being independent.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Sarradin (US 5,387,784).
3. In regards to claims 1, 4, 7, and 10, Sarradin discloses a method and system for effecting user payment for a purchase by means of a mobile station (See Fig. 1 and terminal 1-n) of the user in a telecommunication system that includes a telephone network (See Fig. 1 and switched telephone network 30) to which the mobile station is connected via a wireless communication link (See Fig. 1 and central station 10), a network application (See Fig. 1 and network interface 50) connected to the telephone network and a mobile station application, comprising the steps of: generating in the network application a user profile from modes of payment employed by the user;

Art Unit: 2642

generating by means of the network application, when the mobile station user is to make a purchase payment, a mode of payment message based on the user profile for transmission to the mobile station; presenting, on the mobile station, user-selectable payment alternatives; and generating a response message based on user input in response to the presented payment alternatives and sending the response message to the network application (See col. 2 lines 5-16, col. 2-3 lines 67-13, and col. 4 lines 46-59).

4. In regards to claims 2 and 8, Sarradin discloses a method and system, wherein the user-selectable payment alternatives presented on the mobile station are defined in the mode of payment message (See col. 2 lines 52-66, col 4 lines 46-59, and [claim 5, col. 5 lines 2-28).

5. In regards to claims 3 and 9, Sarradin discloses a method and system, further comprising the step of defining, for inclusion in the mode of payment method, a control code for identifying the network application (See col. 1 lines 9-22).

6. In regards to claims 5, 6, 11, and 12, Sarradin discloses a method, further comprising the step of requesting, by the network application, additional information from the mobile station by means of which a payment is to be effected (See col. 1 lines 9-22 and col. 2-3 lines 52-13).

Response to Arguments

7. Applicant's arguments with respect to claims 1-12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. O'Hagan et al (US 6,595,417) teach an electronic shopping system. Mahany et al (US 6,654,378) teach a transaction control system including portable data terminal and mobile customer service station.
